IN-CLOUD

Cloud computing is revolutionizing the standard IT paradigms, being a pillar of the digital transformation of the society. It is bringing radical changes into the public and private sector.

Cloud services and technologies in numbers:

- The worldwide cloud computing market grew 28% to 110 Billion Dollars in revenue in 2015 (Synergy Research Group)
- "Cloud Shift" will affect more than 1 Trillion Dollars in IT spending by 2020 (Gartner)
- 2.5 million new European jobs by 2020 (target of European Cloud Computing Strategy)

Do you want to acquire skills and knowledge about Cloud services and technologies?

Do you want to discover the benefits and potential of Cloud Computing?

Do you want to be a qualified professional in Cloud technologies?

With the IN-CLOUD project, you can enrol in 4 training courses and get professional qualifications in different sectors related to Cloud technologies and services.

ALL THE ACTIVITIES ARE DELIVERED AT DISTANCE

Join the IN-CLOUD project:

- 4 qualifications on Cloud services and technologies
- ECVET credit system, recognized at European level
- Courses in 6 languages and delivered fully at distance
- A smart learning environment able to address the different users' profiles and needs
- Interviews with experts, showcases and much more...
