Kimera IT is a SME and a Cloud Services provider. Its services include IT consulting, Secure Cloud Instances, and High Deliverability through Kimera Mail Services. It provide cloud services, security monitoring, secure mail servers, log analysis and business continuity solutions, providing exceptional business support.

Cloud drive offers:

- Access to your data from anywhere and any device;
- Synchronize files, music and pictures;
- Instantly share your files with internal users or via e-mail via a secure link;
- Search bar to quickly find the files you need;
- Collaboration & File Versioning;
- Shared Calendar & Task management.

Cloud Instance:

Security:

- **Seamless Backup MX Service** (Service designed to work as a fail-over mail solution, providing backup MX servers so you don't lose a single e-mail should your e-mail server go down for any reason);
- **Cloud Firewall + Routing** (Designed to block unauthorized access and helps prevent hackers from intercepting private data. The routing layer gives you precise control of incoming and outgoing packets on the network);

- **Trusted E-Mail Encryption for Sensitive Data** (Ready to use relay provides up-to-date high level encryption for outgoing e-mail communications. Ideal for web sites or web services that need to transmit sensitive data such as credit card information, user passwords and / or e-mail addresses);
- **Cloud File Manager + Private Drop Box;**
- **Remote Encrypted Storage Space** (Backup solution off-site stores your most sensitive data safely while the transfer itself is always encrypted between sites);
- **Service Request System + E-Mail Integration** (Ready to use customer relations management including support portal and knowledge base).

This showcase has been collected in the framework of the Erasmus+ project **IN-CLOUD – “Innovation In The Cloud Bridging Universities And Businesses”** (pr. n° 2015-1-IT01-KA202-004733), funded by European Commission. For more information: www.learn-in-cloud.eu.
